

Quality policy

Sourcing Network Stockholm AB's clients and other stakeholders can expect that:

- We supply the right number of senior IT consultants at the right time
- We are on the cutting edge of the external consultant business, with in-depth, personal knowledge and high expertise
- We create satisfied clients by delivering consultants who fulfil both specified and unspoken client needs
- We are reliable business partners, employers and collaborators
- We hire our employees to fulfil our clients' needs, requirements and expectations
- We deliver added value, which means that our clients consider us extremely reasonably priced and attractive
- Our quality policy is understood and complied with by everyone in the organization, and is regularly updated

Our employees commit to:

- Live up to our clients' demands and other relevant stakeholder requirements, including applicable laws and regulations
- Contribute to continuous improvement of the company and the quality of our projects and services

Environmental policy

At Sourcing Network Stockholm AB, we work to protect the environment, reduce our environmental impact and develop our environmental work. As an IT consultancy, we deliver consultants and services with minimal environmental impact. Choosing us as a supplier or partner must be a good environmental choice.

Our clients and other stakeholders can expect that:

- We train and motivate our employees to perform their work in an environmentally responsible way
- To the greatest extent possible, we require our suppliers and consultants to actively work to protect the environment
- We strive to minimize our environmental impact from air travel through planning and choosing more environmentally friendly modes of transportation
- We strive to reduce our paper consumption

Our employees commit to:

- Comply with applicable environmental laws and regulations as well as other applicable binding requirements
- Contribute to the continuous improvement of our environmental management system by working to meet environmental goals and achieve better environmental performance in our company
